EXPERIENCE

Data Analyst

Jul 2025 – Present

School of Social Work, University of Texas at Arlington

Arlington, TX

- Co-authored and published a **data dictionary** (DOI, CC BY 4.0) documenting **200+ variables** across linked survey and social-network datasets, enabling accurate reuse by external researchers.
- Audited and validated research datasets using **Python** (Pandas) and **dbt**, maintaining **99.5% data accuracy** to support high-quality academic research and reporting.
- Developed a document search and retrieval (**RAG**) pipeline extracting accurate responses from 5+ policy and training documents, reducing manual lookup time by **70%**.
- Built interactive social-network visualizations using **PyVis** and **D3.js** mapping research connections across **28 faculty and students**, deployed via GitHub Pages.

Data Analyst Intern

Mar 2025 – Jun 2025

Scouting America

Irving, TX

- Built an **Agentic AI** chatbot using **AWS Bedrock** to automate data queries, improving operational efficiency and security compliance by **25%**.
- Engineered **Python** and **SQL** preprocessing pipelines ingesting **500K+** historical records to improve data quality and power cloud analytics workflows.
- Architected **Power BI** dashboards using **DAX**, reducing report-generation time by **40%** and improving stakeholder visibility into program performance metrics.

Teaching Assistant – Cloud Computing & Python Programming

Jan 2024 – Feb 2025

The University of Texas at Arlington

Arlington, TX

- Mentored 100+ students across Python and cloud-computing courses, delivering lectures, grading assignments, and guiding AWS setup and security best practices.

System Analyst

Jan 2021 – May 2023

Access Healthcare

Mumbai, India

- Led a 5-member team providing 24/7 backend support for GE's AuditWorks system – managing incidents, patches, and maintenance to ensure **99.8%** uptime and reduce resolution time by **30%**.
- Collaborated with database teams to troubleshoot and optimize large-scale **MongoDB** instances integrated with **Alteryx** servers, improving data-processing reliability by **35%**.
- Automated infrastructure and configuration documentation, increasing operational transparency and reducing manual effort by **25%** while maintaining compliance standards.
- Performed weekly patching, system upgrades, and log reviews across **Linux** environments, ensuring **100%** compliance with internal IT and audit requirements.

PROJECTS

ER Room Tableau Dashboard | *Tableau, SQL, Python*

- Developed a Tableau dashboard analyzing 9,200+ ER visits, surfacing patient trends, peak visit times, and resource utilization insights.

Customer Behavior Analytics | *SQL, Python, Power BI*

- Developed an end-to-end analytics solution using SQL, Python, and Power BI to analyze customer behavior patterns.

Real-Time ETL Pipeline with Apache Airflow | *Python, Airflow, PostgreSQL*

- Orchestrated ETL workflows with Airflow on Astronomer, automating ingestion, transformation, and loading into PostgreSQL.

EDUCATION

Master of Science in Information Systems, University of Texas at Arlington, TX (4.0/4.0)

May 2025

Bachelor of Engineering in Computer Engineering, Mumbai University, Mumbai, India (3.5/4.0)

May 2017
